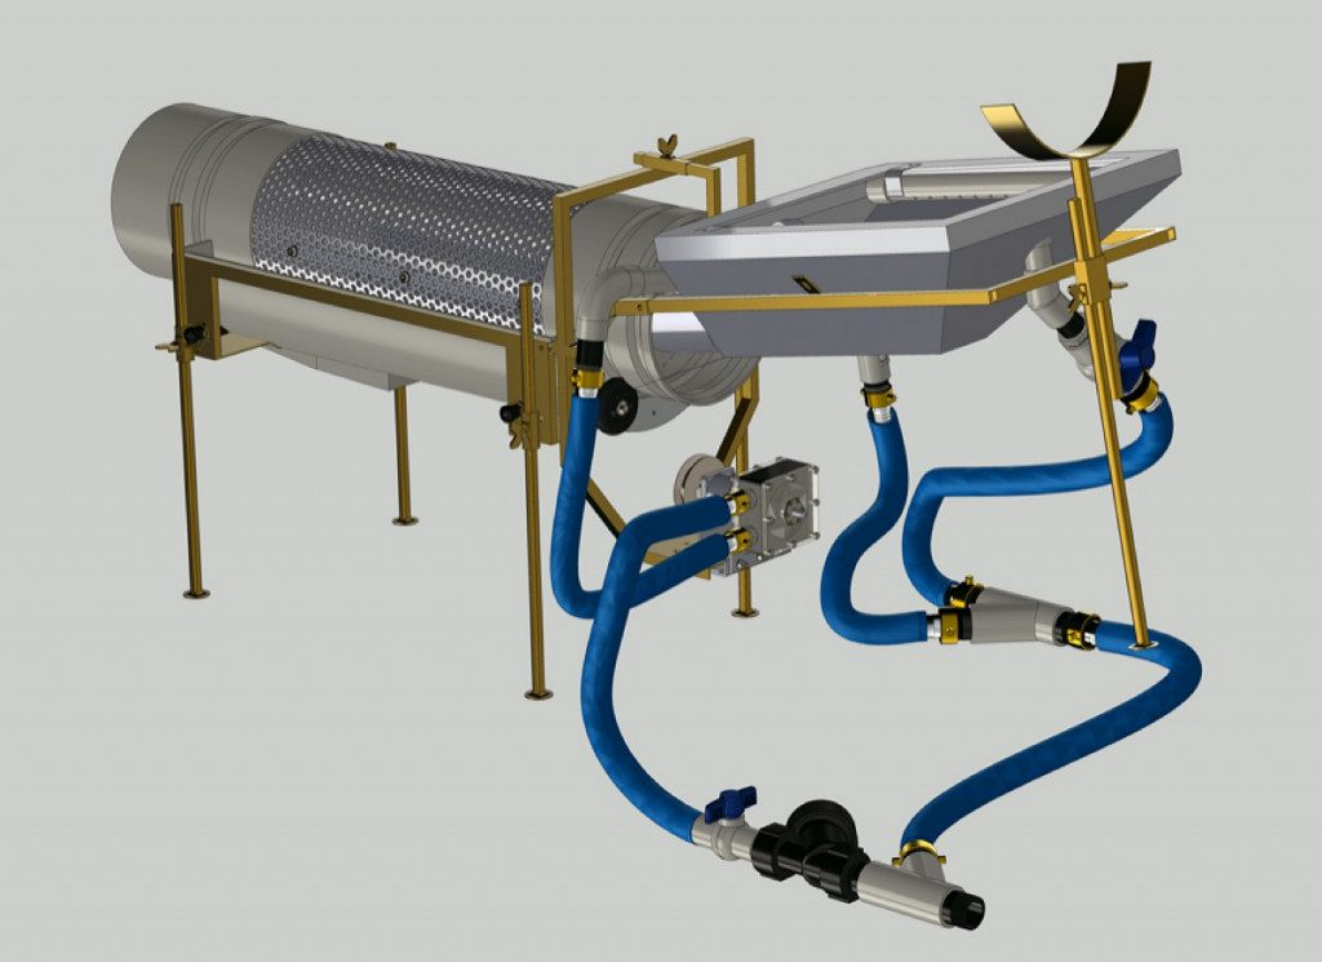
Keene KT10WD Trommel Water Drive (*Local Pickup Only)



THIS PRODUCT IS AVAILABLE FOR LOCAL PICKUP ONLY! For Exceptions, Please Call Us.

The KT10 Trommel is ideal for harsh conditions such as glacial silt, high clay content, heavily rooted material and compacted gravels. The material is fed and washed in the feed hopper that flows into the classifier drum. The drum, with the spray bars and breaker bars, thoroughly washes and classifies the material creating ideal conditions for optimum fine gold recovery in any sluice (sluice is not included). The KT10 is capable of moving serious amounts of material of up to one yard per hour, keeping a one or two man crew busy.

Price: $2,859.00

Keene RC-1 Rock Crusher (*Local Pickup Only)

THIS PRODUCT IS AVAILABLE FOR LOCAL PICKUP ONLY! For Exceptions, Please Call Us.

This machine is lightweight, high-speed, and designed for crushing rocks to extract minerals, particularly gold. It uses centrifugal force to crush rocks against a hardened steel impact wall at high speeds. The RC-1 rock crusher can handle rocks up to one inch in size and is capable of reducing them to a fine powder, which helps in separating gold from other materials.
