Product Short Description :

The Pro-Pointer AT provides all terrain versatility for locating and pinpointing metallic targets. It is environmentally protected from the elements and is fully submersible to a maximum depth of 10 feet or 3 meters.

Fully waterproof to 10 feet with orange color for added visibility underwater.

Maximum Sensitivity for improved detection of nuggets and other small targets. Choose from three Sensitivity levels.

Fast Retune: Quick button press instantly tunes out environment or narrows detection field for precise pinpointing of larger targets.

Retuning allows user to quickly: Shrink detection field to precisely pinpoint large targets, Tune out mineralized ground, wet beach sand, etc., Help gauge target size/distance, Help identify edges of large target, Pinpoint multiple targets versus one large target signal

Lost Pro-Pointer Alarm: After 5 minutes with no button presses, the pinpointer emits periodic warning chirps.

Automatic power off after 60 minutes of warning chirps; saves batteries.

Simple, single-button operation for Power, Retune, Sensitivity adjustment, and Stealth Mode.

Ruler in Inches and Centimeters molded into side of pinpointer to judge target depth.

Lanyard Attachment Loop molded into side of pinpointed.

New power button is easy to operate even with gloves.
