Pro-Camel 24 Inch Gold Wheel

When the base material is properly classified, meaning the relative size of the material being processed is the same, the Pro-Camel Automatic Gold Panning Machine is hard to beat for recovering fine gold.
Created by the pioneers in spiral panning technology for more than 40 years.
It is a fast, high capacity machine capable of processing up to 400 pounds of placer sand per hour.
That is a 471% increase in processing capacity over the Desert Fox Automatic Gold Panning Machine.
Unique 2-stage Spiral Wheel

15 Spiral riffles lead into an inset second stage of 5 additional spiral riffles.
This innovative design increases gold recovery over the standard single stage wheels.
Exclusive Aqua-Jet technology ensures that the material stays in a slurry allowing the gold to drop out into the spirals.
Variable speed wheel control & adjustable water flow.
Allows you to fine tune the Pro-Camel Automatic Gold Panning Machine to the material being processed.
The drive unit is gear driven and uses sealed ball bearings allowing it to run smoothly, quietly, and be energy efficient.
Powered by any 12-volt Battery with at least 16 amps of output (Battery Not Included).
