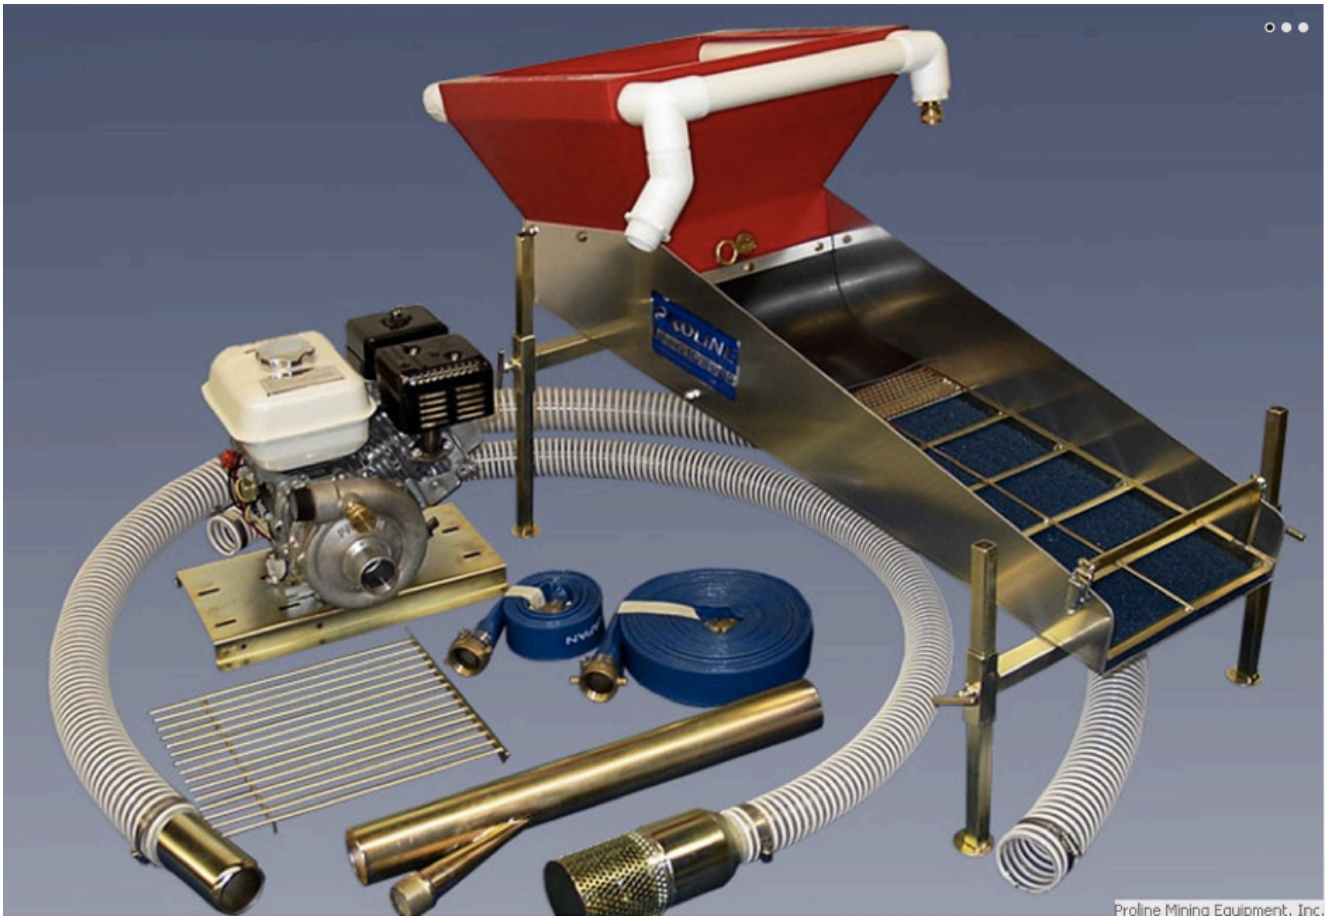
Proline 2.5 Inch Highbanker-Dredge With GX120 And HP200 Pump (*Local Pickup Only)



THIS PRODUCT IS AVAILABLE FOR LOCAL PICKUP ONLY! For Exceptions, Please Call Us.

The Proline 2.5″ combo has become very well accepted with many prospectors who feel it’s the perfect size dual-purpose machine. When this unit is being operated as a gold dredge, it’s capable of processing in excess of five cubic yards of material per hour. It’s also the smallest combo that can handle a continuous feed with a standard size shovel, making it the perfect size for one or two people.

NOTE: Color of hopper will randomly be blue, green, or red.

Price: $3,625.00

Proline 3 Inch Power Jet

No one makes power jets like Proline. Rather than using a steel casting, we use a more efficient machine formed inductor. The result is a lighter power jet with better vacuum and easier priming.

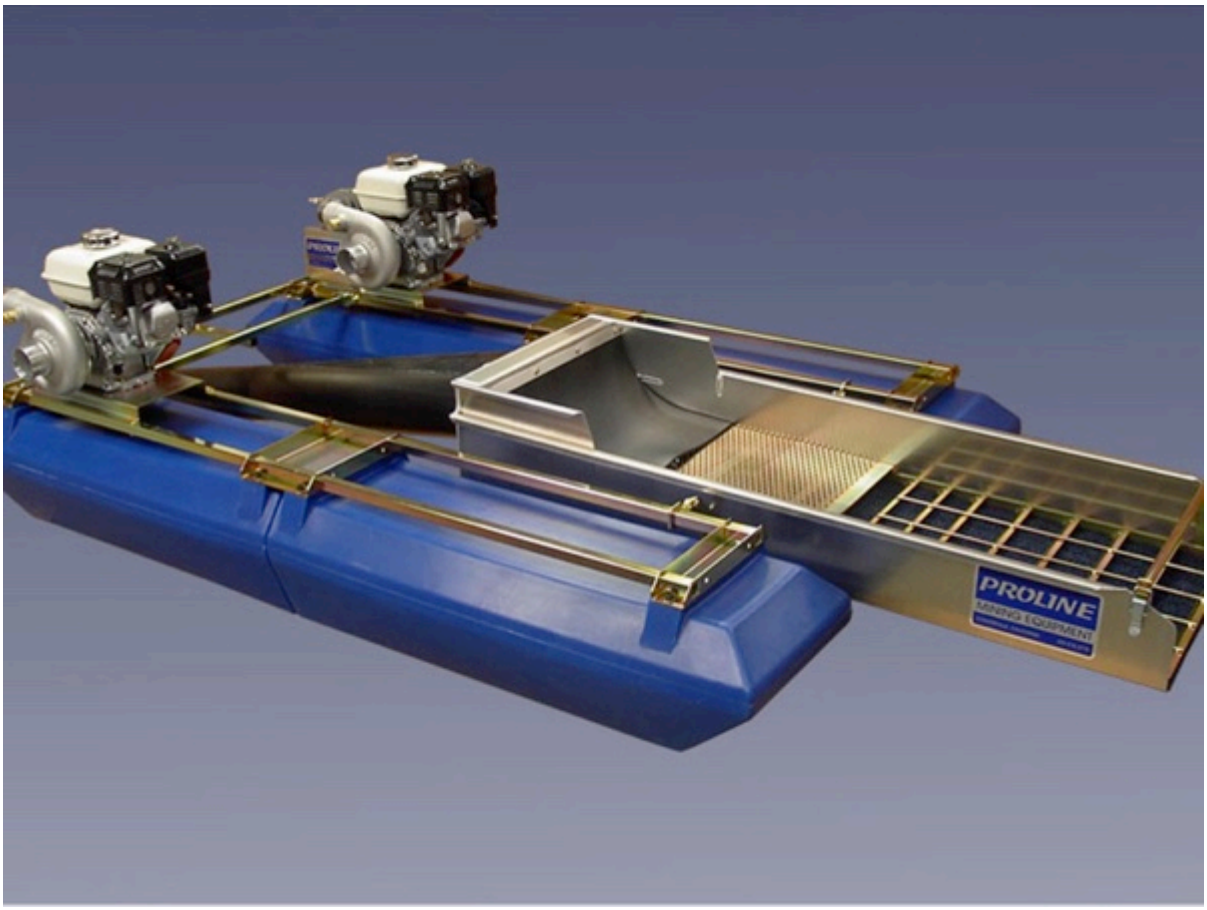
Proline 5 Inch Dredge With Twin GX200 And HP400 Pumps (*Local Pickup Only)



THIS PRODUCT IS AVAILABLE FOR LOCAL PICKUP ONLY!
For Exceptions, Please Call Us.

The 5″ size always has been popular with dredgers who were looking for the perfect balance of portability with higher productivity. Smaller gold dredges simply can’t process as much gravel and the larger dredges require more effort to get into those more remote areas where the richer gold deposits are. This is why the 5″ gold dredge size is normally the smallest dredge chosen by the serious prospectors and professional dredgers.

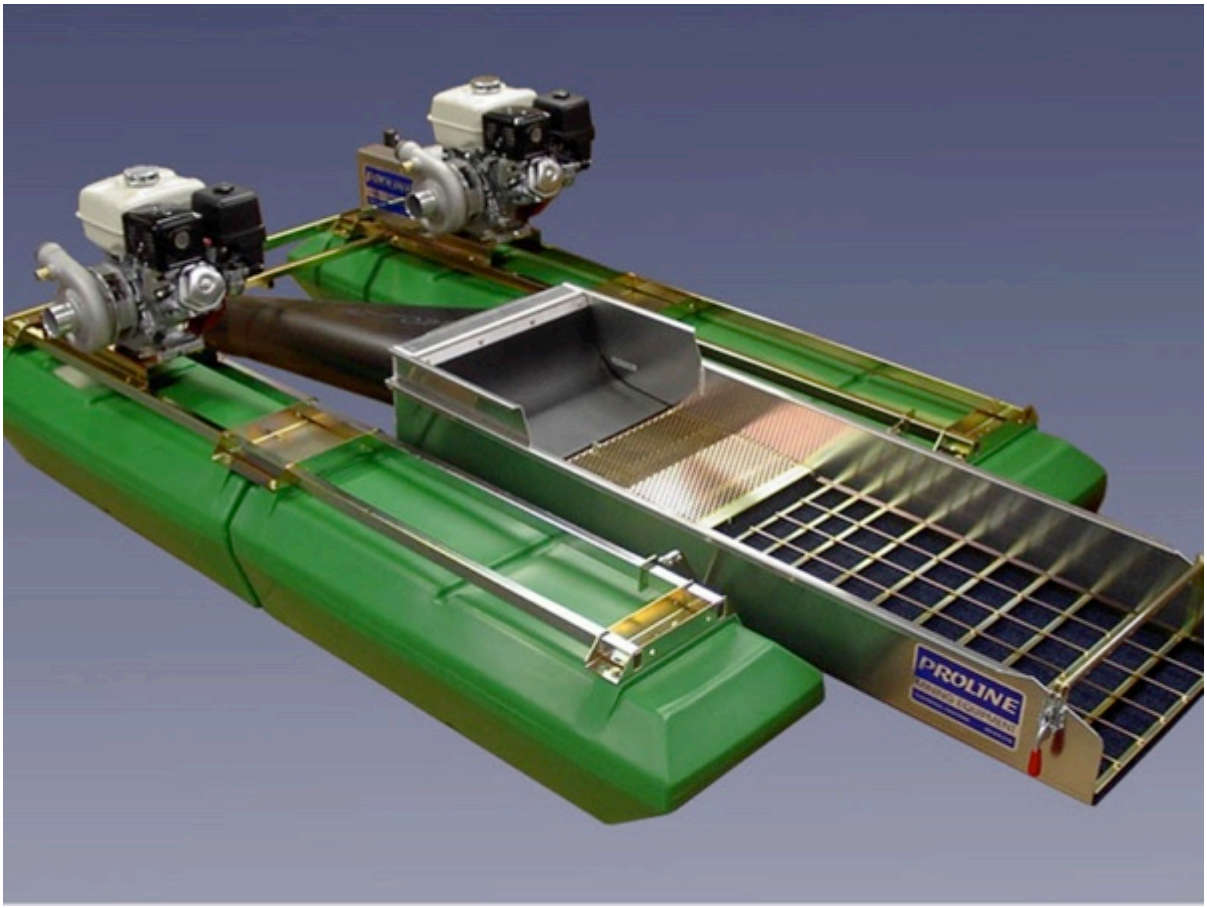
Proline 6 Inch Dredge With Twin GX270 And HP500 Pumps (*Local Pickup Only)



THIS PRODUCT IS AVAILABLE FOR LOCAL PICKUP ONLY!
For Exceptions, Please Call Us.

The Proline 6″ gold dredge is one of our personal favorites. It is relatively lightweight and can be transported and assembled with little more effort than that required for a 5″ dredge, yet, it is capable of processing several times more material than those smaller dredges. The 6″ gold dredge is ideally suited for use as an exploration and sampling unit for larger mining projects and is also capable of being the primary source of gold recovery in smaller operations. In our opinion, the 6″ is the largest gold dredge that can be effectively operated by one man, however, a two-man team would

allow the gold dredge to be used to its fullest potential.
