

Fisher Gold Bug 2 Metal Detector

Fisher Gold Bug 2 With 10 Inch Coil Gold Nugget / Electronic Prospecting Metal Detector

The MOST Sensitive VLF Gold Hunting Detector Ever Made

Extreme Sensitivity to Small Gold Nuggets

High Precision Dual-Control Ground Balance

Iron Disc Mode for Iron & Hot Rock Rejection

Deep Target Audio Boost

Lightweight & Hip-Mountable

Available with a 10" Elliptical Waterproof Search Coil

Operating Frequency: 71 kHz

Five Year Warranty

Fisher Gold Bug Pro Metal Detector

Finds the smallest gold nuggets in highly mineralized soils
V-Break™ Industry's First Variable Breakpoint tone discrimination system
Ground Grab®, Computerized Ground Balancing
Real-Time computerized ground balancing
V.C.O. Audio in All Metal & Discrimination Mode
Independent control over Threshold & Gain
Continuous Ground Condition Readouts
Ground Phase value indicates type of mineralization
Fe304 graphic indicates amount of mineralization
Static Pinpoint with depth indicator
Dual Headphone Jacks
19kHz Operating Frequency
Ultra-Simple User Interface
Ultra-Lightweight (2.5 lbs.)
Five Year Warranty

[Garrett AT Gold Metal Detector](#)

Deep Seeking, All Terrain **AT GOLD**

Headphones are included with the Garrett AT Gold (Waterproof headphones sold separately)

True All-Metal mode offers deepest detection depth and sensitivity on the smallest nuggets.

Simultaneously shows the target's conductivity and the detector's discrimination pattern.

Designed for use in wet, humid and dusty environments.

Weatherproof housing can be immersed in water to 10-foot (3m) depth.

Numerical scale from 0 to 99; indicates a target metal's conductivity for increased ability to distinguish targets from each other.

Allows the user to manually adjust the audio threshold (constant background sound) to better hear targets.

Proportional audio response and Tone Roll Audio features provide more target information.

Allows user to hear discriminated iron and to audibly identify problematic flat iron objects like bottle caps and washers.

A Garrett exclusive feature that allows user to audibly identify iron objects even while operating in a True All Metal Mode.

There is an automatic feature that allows user to quickly ground balance the detector in mineralized soil conditions.

Non-Motion All-Metal Mode is used to precisely locate a detected target's location in the ground.

Minelab EQUINOX 800 Metal Detector

With innovative NEW multi-frequency technology, the EQUINOX Series redefines all-purpose detecting for the serious enthusiast. Equally adaptable for all target types and ground conditions, just set your detecting location and go!

Includes:

Wireless Bluetooth/apt-X Low Latency headphones

WM 08 wireless audio module

USB charging cable with magnetic connector

Multi-language screen protectors

Getting Started Guide in English and Russian

Minelab EQUINOX 900 Metal Detector

The best-selling all-in-one treasure and gold detector just got better. The EQUINOX 900, driven by Minelab's proven ground-breaking Multi-IQ technology, boasts an impressive 119 High Resolution Target ID system, superior target separation, and is fully waterproof to 5 m (16 ft) with IP68 rating. With upgrades like its 3-piece carbon-fibre collapsible shaft system and advanced audio controls, plus fully-loaded features including Control Pod Flashlight and Handgrip Vibration there's never been a better time to join the Minelab EQUINOX revolution.

Includes:

Minelab EQUINOX 900 Metal Detector

ML85 Low Latency Wireless Headphones With Carry Case

11-inch round Double-D coil with skidplate (waterproof to 5 m / 16 ft)

6-inch round Double-D coil with skidplate (waterproof to 5 m / 16 ft)

USB Charging Cable

Screen Protector

[Minelab GOLD MONSTER 1000 Metal Detector](#)

Features

Fully automatic operation

Extra sensitive 45 kHz VLF performance
Highly adaptable
2 search coils included
Easy quick start

The GOLD MONSTER 1000 features fully automatic operation and comes with a choice of coils, battery options and shaft configurations. If you're looking for super sensitive gold performance at a great price, then this is the detector you've been waiting for!

[Minelab GPX 5000 Metal Detector](#)

Minelab GPX 5000 Pulse Induction Metal Detector, Part Number 3300-0420. This metal detector is one of the best in the Minelab Gold Series of metal detectors.

[Minelab GPX6000 Metal Detector](#)

Find all gold, in all soils, all the time. Powered by GeoSense-PI™ technology, the GPX 6000 is the fastest, lightest and simplest way to find all types of gold in one machine.

Includes:

Minelab GPX 6000 Metal Detector

GPX 11: 11" Round Monoloop Coil

GPX 14: 14" Round Double-D Coil

Li-Ion Battery: Quick Release Rechargeable Battery

Charger: AC Mains Plug Pack Charger

Battery Charging Cable: Crocodile Clip Cable for vehicles

Bluetooth Headphones: Wireless Headphones Supplied With Detachable Cable And USB Charging Cable

Minelab GPZ 7000 Metal Detector

Extreme Gold Depth

So how deep can you go? Well, up to 40%* deeper than the GPX series. Old gold fields are new again, thanks to the revolutionary new ZVT technology. Minelab takes you much deeper than ever before!

Maximum Gold Sensitivity

The incredible sensitivity of the GPZ 7000 with the Super-D coil gives you the ultimate advantage in the field. Find gold others have missed, from sub-

gram gold through to those elusive 'retirement nuggets' still out there.

Precision Ground Balance

Most gold is buried in the mineralized 'difficult' ground that many detectors can't cope with. The GPZ 7000 accurately 'balances' and automatically 'tracks' to even the most severe ground conditions, with ease.

Enhanced Noise Immunity

The outstanding noise immunity of the GPZ 7000 enables very smooth and quiet detecting. With 256 Noise Cancel channels, the GPZ 7000 picks up less atmospheric noise. Listen to the gold, not the noise interference!

Simple Menu System

The easy-to-use Menu Pages group similar functions together under Detect and Map sections, with all settings quickly accessible. Use the Guide Sequences to get started. You don't need to be an expert to find gold!

Wireless Audio Freedom

Detect without your headphones attached to the detector. With the WM 12 Wireless Module you have the choice of using the in-built speaker, the supplied headphones, or your favourite headphones.

GPS Locating & PC Mapping

See your location and log gold finds as you detect. With the built-in GPS you'll efficiently cover more ground and won't miss a nugget! Record your favourite 'hot-spots' by saving data to XChange 2 with Google Maps.

Waterproof Coil to 1 m (3 ft)

The GPZ 14 coil is waterproof and submersible to a depth of 1 m (3 ft). You can easily detect rivers and shorelines with no fuss! The weatherproof design of the GPZ 7000 allows you to go detecting in rainy or wet conditions.

Minelab MANTICORE Metal Detector

MANTICORE with Multi-IQ+ is the most powerful, fastest, and precise metal detector in Minelab's history. The heart of MANTICORE is its super-charged Simultaneous Multi-Frequency (MULTI-IQ+) engine. This feat of innovation generates an incredible 50% power increase over the best-selling detector series of all time: EQUINOX. When combined with advanced 2D Target Identification (ID) and rich audio options, the detectorist has every bit of vital information arriving at their eyes and ears. MANTICORE is an unrivalled detecting experience that pushes the boundaries of detecting to deliver more power, more depth, and more finds.

Includes:

Minelab MANTICORE Metal Detector

Low Latency Wireless Headphones With Carry Case

11-inch round Double-D coil with skidplate (waterproof to 5 m / 16 ft)

USB Charging Cable

5x Screen Protectors

3.5 mm Headphone Audio Cable

Minelab SDC 2300 Metal Detector

Find elusive sub-gram nuggets on land & underwater!

The SDC 2300 is a high performance mid-range gold detector, perfect for chasing down those elusive sub-gram nuggets on land and underwater. This compact waterproof detector comes with easy-to-use controls and is assembly-free.

Quickly find more gold patches and more gold nuggets!

Features:

Compact: Folds to small portable size, 8.5" (216mm) by 15.7" (400mm). Fits into carry-on luggage and most backpacks.

Waterproof Capability: Fully submersible to 10' (3m) for detecting riverbeds and shorelines, allowing you to transition with ease from land to water.

Rugged & Assembly Free: Military grade construction, one piece detector designed to perform in the toughest conditions. No assembly required.

Easy Patch Hunting: Search quickly and efficiently in hard to reach and remote places to find those elusive gold bearing clustered deposits.

[Minelab Vanquish 540 Pro-Pack Metal Detector](#)

VANQUISH 540 Pro-Pack: for the serious detectorist who's always in control. As if Multi-IQ technology, audio control, and pinpoint wasn't enough the 540 also boasts iron-bias control, Bluetooth headphones, red LED backlight and rechargeable batteries. What's more, it comes with waterproof 8" and 12" coils as standard for greater depth and precision. No matter where the hunt takes you, the 540 is the ultimate packout for those who want it all.

Minelab X-TERRA 705 Gold Pack Metal Detector

Minelab X-TERRA 705 Gold Pack Metal Detector. This is the top of the Minelab Adventure series detectors.
