Fender Mustang GTX50 Combo Amp

Modular signal path flexibility lets you move effects anywhere in the chain, while the crisp full-color display lets you know

what’s going on under the hood. Connect with Bluetooth to experience the all-new Fender TONE 3.0 (for iOS and Android), a free app that offers realistic look and feel while you spin the knobs of the most famous amps and effects of all time. You can do deep editing, preset browsing from the Fender Tone community, preset back-up and restore, and more. Bluetooth audio streaming is also included for playing along with your favorite tracks. The amp’s WiFi capabilities (a Fender exclusive) let you connect for product updates, so your amp keeps getting better.

Mustang GTX50 offers incredible bang for the buck. The all-new cabinet design is more gig-ready and durable; a new 12-inch Celestion speaker produces strong, powerful response; and the improved amp, speaker and cabinet models ensure that Mustang GTX sounds better than anything else in its class. Stereo XLR line outputs and stereo effects loop let you interface with PA, recording and outboard gear. There’s also an optional seven-button footswitch available with individual bank up and down functions and easy effects selection, making GTX a true live performance amp. It also unlocks the amp’s included 60-second looper.
