Fender Super-Sonic 60 Head

After years of painstaking research and design, we're proud to introduce the Fender Super-Sonic amplifier—the first Fender all-tube amp to capture the highly desirable sparkly tones of the '65 Vibrolux®, the thick tone of the '66 Bassman®, and the smooth and creamy crunch of modern, high-gain amplifiers. The Super-Sonic amp lets discriminating players capture industry-standard Fender clean tones, bluesy "pushed" tones and modern high-gain tones in one easily portable all-tube amplifier. The Super-Sonic Head—here in its cool "Black/Pepper" incarnation—delivers 60 watts to the Super-Sonic 412 and 212 enclosures, with an effects loop, preamp out/power amp in jacks, three-button footswitch and sturdy birch/maple ply

construction.
