## DigiTech XMC Multi-Chorus Pedal

DigiTech XMC Multi-Chorus Multi-voice Chorus
Multi-Voice Chorus Pedal
The new Multi Chorus is the first true multi-voice stompbox ever! With up to 16 voices that you can morph through by rotating the Voice knob! Now you can get chorusing so thick it flows like butter out of your speakers, in stereo or mono. It even has randomization that thickens the chorusing further as you add more voices. The Multi Chorus also has switchable cabinet emulation and stereo outputs.

Multi-voice chorus
Blend from 1 to 16 voices
Voice randomization

Stereo and switchable CIT Cabinet Modeling outputs

## Categories: Effects, Pedal Effects

## Product Short Description :

We like to think that the name DigiTech is synonymous with the word innovation. We offer up the first true multi-voice stomp box ever as proof! Morph from 1 to 16 voices using the voice knob to get chorus effects so thick it puts that week old coffee on your desk to shame!

You asked for options and DigiTech delivered them in this rugged metal chassis that includes voice randomization, dual mono and stereo outputs, and switchable cabinet modeling. Don't settle for a standard Chorus pedal that keeps you wanting more. Be amazed with a Chorus pedal that gives you more than you thought was possible!

## Customer Service Is Our Top Priority!
