DigiTech XTF Turbo Flange 7-Mode Flanger

This is the display model and the last one in stock with manufacturers warranty.

DigiTech XTF Turbo Flange 7-Mode Flanger

The Turbo Flange™ delivers 7 operational modes, instead of the typical one mode only that you find in some other pedals. These operational modes are easily selectable using the mode control allowing you to choose from a selection of awesome voicing sounds, triggering feature, and useful step functions.

Now you are no longer limited to a one-trick pedal. You can dial in the exact flanger sound you want! Tbe Turbo Flange™ has Speed, Depth, Regen, and Mode controls. Outputs for the pedal includes Left/Mono and Right.

7 Different flange types

Triggering and step capability

Stereo and switchable CIT™ Cabinet Modeling outputs

Product Short Description :

Why settle for a stomp box that will give you only one Flange tone? You want options and DigiTech delivers them! The X-Series Turbo Flange gives you an incredible total of 7 Flange effects to choose from! Whether you want the classic Flange tone with 3 voices to choose from, triggered, step, or the constant rise/fall sound; you will have it all in one convenient stomp box.
Don’t settle for a one trick pony from someone else. Go for

quality. Go with DigiTech. The durable rugged metal chassis construction will stand the test of time and options like dual mono and stereo outputs with switchable cabinet modeling for direct to board recording will give you what you need to take your music to the next level!

Customer Service Is Our Top Priority!
