Fender Marine Layer Reverb Pedal

Reverb is an essential element in nearly any rig. Whether you’re adding dimension to your sound or drenching your signal

in sparkling reflections, our Marine Layer Reverb can do it all. Multiple reverb types, including classics like Hall and Room along with modern marvels like Shimmer, make this an indispensable pedal in your signal chain. The reverb tails continue when the effect is muted, ensuring a smooth and natural decay.

Combining an octave-up pitch shift with some other tricks, Shimmer is an ethereal-sounding reverb effect that makes notes bloom and grow as they fade out.

These classic reverb sounds built the modern music pantheon-you know them, you love them and you can’t live without them.

Bypassing the Marine Layer Reverb lets the reverb tails fade out naturally, instead of cutting them off artificially.

Every Fender effects pedal is crafted from lightweight, durable anodized aluminum-they’ll easily withstand the rigors of touring.

Model Name: Marine Layer Reverb
Model #: 0234532000
Series: Accessories
Country Of Origin: CN

Part# 0234532000

UPC 885978891146

Price: $229.99

SKU: 7488

Categories: Pedal Effects

Product Short Description :

Hall, Room and Shimmer reverb types

Reverb tails continue when effect is muted
