Fender Pugilist Distortion Pedal

Fiery sounding and flexible, the Pugilist Distortion is ready to add some heavyweight gain to your rig. This original design

features dual gain engines—with independent tone controls for each—letting you select multiple variations of distortion, ensuring this pedal will play well with any rig. Series/Blend switch lets you stack channels for thick, cascading distortion, while the Bass Boost switch fattens up your tone. The Blend control mixes the two channels to get the best of both worlds, crafting a sound just for you.

The versatile per-channel tone controls not only let you shape your sound exactly, they also make it easy to use this pedal with any amp-even one with a Bright switch.

Every Fender effects pedal is crafted from lightweight, durable anodized aluminum-they'll easily withstand the rigors of touring.
