

# Fender CD-160SE 12 String Acoustic-Electric Guitar

There's no mistaking the chiming tone of a well-made 12-string acoustic dreadnought. The CD-160SE 12-String is everything you want in this type of guitar: a huge sound on each and every strum, making it as great for solo singer-songwriters as it is for playing with a band. Perfect for any stage setting, it gets its great sound from a combination of a solid spruce top and high-quality onboard electronics. Has a traditional Natural finish. On its own or plugged in, the CD-160SE is an extremely playable 12-string model with great value.
