Product Short Description :

Discontinued

Please see the newer version: Fender FA-15N 3/4 Nylon String Acoustic Guitar With Gig Bag

A great choice for beginning musicians or experienced players who like having a small travel guitar, the MC-1 3/4 Nylon is a classical guitar that will help people start playing and keep playing. Nylon strings are perfect for beginners, who are often turned off by the sharp initial discomfort of steel strings, and with a smaller nylon-string guitar like the MC-1, it’s much easier to practice without finger pain. Even with its small size and small price, the MC-1 is a well-made guitar with good tone and solid intonation that exceed the expectations of most student-level instruments, and a gig bag for easy transport is included.

FEATURES

- Nylon-string 3/4-size body style
- Satin-finish agathis top with “X” bracing, sapele back and sides
- Satin-finish nato neck with 18-fret fingerboard
- Rosewood bridge with compensated saddle

Customer Service Is Our Top Priority!
