Jackson JS3Q Spectra Bass Dark Sunburst

Versatile style and enormous sound collide in the all-new Jackson® JS Series Spectra Bass JS3Q.

The brand-new offset body style was designed with the artist in mind. The poplar body with quilt maple top features a large upper horn that evenly distributes weight throughout the instrument, providing perfect balance by reducing neck dive for hours of comfortable playing. A graphite-reinforced bolt-on maple neck with scarf joint design provides rock-solid reliability, while the speed neck contour and 12″-16″ compound radius laurel fingerboard with 24 frets make for lightning-fast playability.

The Spectra Bass JS3Q provides a sound that is as unique as the bassist playing it. Whether it be funk, hard rock or gospel, dual passive Jackson medium-output humbucking pickups create a monstrous low-end growl, while a HiMass™ bridge provides enhanced stability, improved sustain and bolder tone. Tone can be further refined and tweaked with a two-way toggle switch for pickup coil splitting, 3-band EQ (active only), blend control and volume control (with push/pull selector to bypass or engage the active circuit for the 3-band EQ). With the push/pull selector, you'll never have to fear a battery running out and losing sound. A quick pull on the volume knob will bypass the active circuit, making it easy to regain sound from the bass without the use of battery power.

Model Name: JS Series Spectra Bass JS3Q, Laurel Fingerboard, Dark Sunburst
Model #: 2919924557
Series: JS
Country Of Origin: ID
Color: Dark Sunburst
Body: Poplar
Body Finish: Gloss
Body Shape: Spectra Bass
Neck Material: Maple
Neck Finish: Satin
Scale Length: 34″ (86.36 cm)
