Gretsch G2622 Streamliner Center Block V-Stoptail Walnut Stain

The secret to the Streamliner’s sound is twofold; the Broad’Tron humbucking pickup and the spruce center block. Specifically designed by the expert engineers at Gretsch for the Streamliner, the high-output Broad’Tron pickup spawns robust lows, pristine highs and a throaty midrange for a unique tone that blends well with other instruments in a band context. A lightweight spruce center block runs the length of the body, reinforcing the top while eliminating undesired feedback for volume-friendly performance on rocking stages. The Streamliner’s sonic power is harnessed and shaped by the traditional control layout—neck and bridge pickup volume controls, a master tone control, master volume control and three-way pickup switching. A fast-playing 12”-radius rosewood fingerboard with elegant pearloid block inlays and 22 medium jumbo frets sits atop the white-bound neck with a thin “U”-shaped profile; ideal for chord work or fiery riffing. Enjoy rock-solid tuning stability courtesy of the stylish Gretsch “V” stoptail tailpiece, Adjusto-matic™ bridge with an anchored base and synthetic bone nut.

All the classic eye-catching style you’ve come to expect from Gretsch is here—vintage-style gold control knobs, F Holes, elegant two-ply white and black body binding, slick-looking nickel hardware, single-ply black pickguard with Gretsch logo and arched laminated maple construction. Nearly impossible to put down once you pick it up and start playing, G2622 Streamliner Center Block Double Cutaway has the updated sound and classic style that has earned Gretsch accolades since the dawn of rock ‘n’ roll.

Model Name: G2622 Streamliner™ Center Block with V-Stoptail, Broad’Tron™ Pickups, Walnut Stain
Model Number: 2800200517
Series: Gretsch® Streamliner Collection
Color: Walnut Stain
Build: Center Block
