

Gretsch G2622T Streamliner Center Block With Bigsby Torino Green

Revitalizing the best elements from the past, the G2622T Streamliner™ Center Block Double-Cut with Bigsby® bursts into the modern music era with powerful sound and style. Brash and feedback-resistant, the sleek G2622T is designed for the guitarist who demands more than the mundane from an instrument—more performance, more style and most importantly, more volume—while retaining all you expect from a Gretsch.

The secret to the Streamliner's sound is twofold—the Broad'Tron™ BT-2S humbucking pickup and the spruce center block. Designed specifically for the Streamliner Collection, the high-output Broad'Tron BT-2S pickup spawns improved definition with tighter bass response for robust lows, pristine highs and a throaty midrange. A lightweight spruce center block runs the length of the body, reinforcing the top while eliminating undesired feedback for volume-friendly performance on rocking stages. The Streamliner's sonic power is harnessed and shaped by the traditional control layout—neck and bridge pickup volume controls, a master tone control, master volume control and three-way pickup switching. A fast-playing 12"-radius laurel fingerboard with elegant pearlloid Big Block inlays and 22 medium jumbo frets sits atop the white-bound nato neck with a thin "U"-shaped profile—ideal for chord work or fiery riffing. Add some shimmer and expression to your playing with the

Bigby-licensed B70 vibrato tailpiece, while the anchored Adjusto-Matic™ bridge and synthetic bone nut grant astounding tuning stability and accurate, slip-free intonation.

Model Name: G2622T Streamliner™ Center Block with Bigsby®, Laurel Fingerboard, Broad'Tron™ BT-2S Pickups, Torino Green
Model #: 2806100580
Series: Streamliner™ Collection
Country Of Origin: ID
