Jackson JS22-7 Dinky Arch Top 7 String Satin Black

Seven-string fans looking for a guitar that is as sleek and deadly as it is affordable will find everything they need with

the JS Series Dinky™ Arch Top JS22-7 DKA HT.

This beastly axe features a 26.5” scale length for better low-end articulation, a lightweight and resonant poplar body with an arched top and a bolt-on maple neck with graphite reinforcement and scarf joint for rock-solid stability. Hosting 24 jumbo frets and piranha tooth inlays, the 12”-16” compound radius amaranth fingerboard creates the ideal playing surface for fat riffs and easy chording near the black plastic nut while gradually flattening in the upper registers for lightning-quick solos and wide bends without fear of fretting out.

Powered by direct mount dual Jackson high-output humbucking pickups, the JS22-7 DKA HT is also equipped with a three-way blade switch, single volume and tone controls, compensated string-through-body fixed Jackson HT7 bridge, sealed die-cast tuners and our 3×4 (3 over, 4 under) AT-1 headstock.

Model Name: JS Series Dinky™ Arch Top JS22-7 DKA HT, Amaranth Fingerboard, Satin Black
Model #: 2910132568
