Jackson JS32Q DKA Dinky Arch Top Transparent Green Burst

Swift, deadly and affordable, Jackson® JS Series guitars take an epic leap forward, making it easier than ever to get

classic Jackson tone, looks and playability without breaking the bank.

The JS Series Dinky™ Arch Top JS32Q DKA features a poplar body with a beautiful quilt maple arched top and bolt-on maple neck with scarf joint and graphite reinforcement for rock-solid stability. Hosting 24 jumbo frets and pearloid sharkfin inlays, the 12”-16” compound radius bound amaranth fingerboard gradually flattens toward the heel from its more rounded profile at the nut. This makes for comfortable and natural-feeling chording and riffing near the nut, with optimal shred articulation and bending nearer the heel.

Dual Jackson high-output humbucking pickups with ceramic magnets erupt with hot, crunchy tone perfect for any flavor of hard rock or heavy metal. Dial in tone to your preference with three-way blade switching and single volume and tone controls, and wail away at will as the Jackson-branded Floyd Rose® licensed double-locking bridge provides dynamic trem action with tuning stability.
