

Fender Super-Sonic 212 Enclosure

After years of painstaking research and design, we're proud to introduce the Fender Super-Sonic amplifier—the first Fender all-tube amp to capture the highly desirable sparkly tones of the '65 Vibrolux®, the thick tone of the '66 Bassman®, and the smooth and creamy crunch of modern, high-gain amplifiers. The Super-Sonic amp lets discriminating players capture industry-standard Fender clean tones, bluesy “pushed” tones and modern high-gain tones in one easily portable all-tube amplifier. The Super-Sonic 212 Enclosure—here in its cool “Black/Pepper” incarnation—is the partner of the 60-watt Super-Sonic Head and features a pair of 12” Celestion® Vintage 30 16-ohm speakers and high-grade Baltic birch ply construction for increased resonance. Casters and cover included.

Model Name: Super-Sonic™ 212 Enclosure (Black/Pepper)

Model Number: 216-1200-000

Series: Pro Tube Series

Type: Speaker Enclosure

Output: N/A

Ohms: 8 ohms

Speakers: 2-12” Celestion® “Vintage 30”, 16 ohm, 75 watt Speakers p/n 0041233000

Channels: N/A
