JBL EON305 Passive Loudspeaker

Features:
250 watt Passive Speaker System, with a 500 watt program power and 1000 watt peak power rating
Light Weight, at only 15 kg (33 lbs) it is truly portable
Multiple handles for easy transport
JBL 15″ low-frequency driver with a 64mm (2 ½ in) diameter edge wound ribbon voice coil
1″ throat diameter next generation JBL neodymium compression driver.
100° H x 60° V asymmetrical waveguide for uniform audience coverage

SonicGuard™ HF protection
NL4 and ¼” input connectors
Loop thru signal flow for extended system application and easy “daisy-chain” connections
Integrated M10 suspension points for easy rigging
Multi angle enclosure for main or monitor applications
Integrated 36 mm pole mount socket with stabilizing securing screw
Highly designed composite enclosure for durability, lightweight, and acoustic performance

Applications:
Live sound reinforcement, speech and vocals, music playback in entertainment, A/V, and institutional venues – especially when ease of use and portability are important factors.
Perfectly matched for powered-mixer systems.
Everywhere you need to be heard.

The universal mounting capabilities make the EON305 perfect for live performers, fixed installations or commercial A/V rental companies. Whether you use the speaker on a tripod stand, mounted on a subwoofer with a pole, in the floor monitor position or in a fixed position suspended by the M10 points, you can count on superior and reliable performance.
