Shure SLX24/Beta87A Wireless Handheld System

Smart, Hard-Working Wireless. Sound installations and working bands need powerful wireless tools that can be set up quickly and used confidently. Shure’s rugged SLX® UHF Wireless Systems exceed these demands with innovative setup features such as auto frequency scan and transmitter setup, exceptional wireless clarity, and legendary Shure microphone Supporting 20 compatible systems across multiple UHF frequency bands, SLX

smoothly integrates into houses of worship, lecture halls, conference rooms, and mobile gear cases. SLX Wireless Systems feature Shure’s patented Audio Reference Companding for clear sound beyond the limits of conventional wireless technology. SLX24/Beta87A Handheld Wireless System SLX Wireless Handheld System. Includes SLX2/Beta87A Handheld Transmitter and SLX4 Diversity Receiver. The Beta 87A brings exceptional clarity to live vocals.

CONSUMER ALERT Most users do not need a license to operate this wireless microphone system. Nevertheless, operating this microphone system without a license is subject to certain restrictions: the system may not cause harmful interference; it must operate at a low power level (not in excess of 50 milliwatts); and it has no protection from interference received from any other device. Purchasers should also be aware that the FCC is currently evaluating use of wireless microphone systems, and these rules are subject to change.
