Acoustic Bronze Lace Sensor With Volume Knob

The Lace Acoustic Bronze offers more superior midrange tone and definition than other sound hole pickups within the same price range. The unique design allows it to be mounted to compensate for the tonal characteristics of your guitar. The Lace Micro Matrix Combs®, Radiant Field Barriers™ and AES Chassis work in concert to accurately reproduce your acoustic sound. Delivering better clarity and string definition, the hum-canceling, adjustable Lace Acoustic Bronze is the perfect solution for your flat-top.
