Product Short Description :

TASCAM's best-selling CD-160 CD player has been updated to the new CD-200. The new player uses a brand new transport, the TEAC CD-5020A. The new transport is custom designed for audio playback with a smooth loading drawer and low clamping noise. The internal clock has been improved for a smoother sound and decreased jitter.

Like the CD-160, the CD-200 has unbalanced phono outputs and S/PDIF digital out on coaxial and optical jacks. MP3 and WAV file playback is supported, and front-panel Folder navigation buttons are provided. A wireless remote control with numerical track select buttons is also included.

Customer Service Is Our Top Priority!
