Rolls DB25b Direct Box

Rolls DB25b Direct Box, With Pad & Ground Lift

The DB25b is a transformer-balanced, passive direct box. The Attenuator cuts the signal from speaker outputs, or hot line outputs so the audio mixer input does not distort. The 1/4 inch Input jacks are paralelled so either one may be used. The Ground Lift may reduce hum.

DB25b Specifications:

Frequency responce 50 – 15K Hz + -3 dB
