Minelab GPX 5000 Metal Detector

The GPX Series has created new gold rushes around the world as these detectors find gold much deeper than most other detectors, in ALL ground conditions. The GPX 5000 is one of the most advanced gold prospecting detector and sets a new benchmark in gold detecting technology. The state-of-the-art

technologies and an incredible eight Soil / Timings (Timings) enable this high performance detector to see through even the toughest ground to find gold of any size at unbelievable depths. Besides the patented MPS, DVT and SETA technologies and legendary GPX ability, this unbeatable detector also features 6 preset search modes, a Boost Audio function and comes with two coils as standard to guarantee successful prospecting.

Product Features: The GPX 5000 has all of the features and functions of the GPX 4500 as standard plus additional functionality providing: Superior GOLD prospecting performance 8 Soil/Timings is like having 8 detectors in 1, find more gold in ALL ground conditions Fine Gold Timing gives even more depth and sensitivity than Enhance – bring home more nuggets even from ground thought to be completely worked out! Salt/Gold Timing improved performance on both large and small nuggets in salty mineralized ground 6 factory preset Search Modes for 'switch on and go' simplicity for everyone Increased Rx Gain adjustment allowing more precise sensitivity control and better performance 2 coils: 11-inch Double-D coil plus 15-inch X 12-inch Monoloop coil as standard Increased Stablizer adjustment level Improved target response settings
