### **Product Short Description :**

Find elusive sub-gram nuggets on land & underwater!

The SDC 2300 is a high performance mid-range gold detector, perfect for chasing down those elusive sub-gram nuggets on land and underwater. This compact waterproof detector comes with easy-to-use controls and is assembly-free.

Quickly find more gold patches and more gold nuggets!

#### **Features:**

**Compact:** Folds to small portable size, 8.5" (216mm) by 15.7" (400mm). Fits into carry-on luggage and most backpacks.

**Waterproof Capability:** Fully submersible to 10' (3m) for detecting riverbeds and shorelines, allowing you to transition with ease from land to water.

**Rugged & Assembly Free:** Military grade construction, one piece detector designed to perform in the toughest conditions. No assembly required.

**Easy Patch Hunting:** Search quickly and efficiently in hard to reach and remote places to find those elusive gold bearing clustered deposits.
