Minelab Vanquish 540 Pro-Pack Metal Detector

SIMULTANEOUS MULTI-FREQUENCY

Why Multi-IQ? Because with Minelab’s revolutionary Multi-IQ technology, you’ve got the combined power of multiple detectors in one – all working for you at the same time. Simply turn on and go. Nothing goes undetected and no terain is off limits. Silver gold or jewellery. Park, field or beach.

Unearth the power of VANQUISH with Multi-IQ.

ALL-TERRAIN

No matter what you seek, VANQUISH has you covered. Simply select one of the four Find Modes – Coin, Relic, Jewellery, or All Metal – then start swinging. Each mode is pre-programmed and optimised to give you the best performance, anytime and anywhere: park, field or beach. You can even save your favourite settings to a custom Find Mode.

VANQUISH welcomes tough terrain. It dominates at the beach in wet sand and salt water, outperforming other detectors that can’t compete. 25 discrimination segments deliver ultimate control over what metals you want to accept or reject.

Product Short Description :

VANQUISH 540 Pro-Pack: for the serious detectorist who’s always in control. As if Multi-IQ technology, audio control, and pinpoint wasn’t enough the 540 also boasts iron-bias control, Bluetooth headphones, red LED backlight and rechargeable batteries. What’s more, it comes with waterproof 8” and 12” coils as standard for greater depth and precision. No matter where the hunt takes you, the 540 is the ultimate packout for those who want it all.
