AKG K141 MKII

The K141 MKII professional semi-open, on-ear headphones are an advanced version of the legendary K141 headphones, ideal for studio monitoring. The patented 30mm XXL transducers with Varimotion technology deliver higher sensitivity, a wide dynamic range and an incredible SPL. Optimized for single-ear use as well, they deliver familiar sound and makes intonation easy.

The K141 MKII headphones feature gimbal suspended leatherette and velvet ear cups and a self-adjusting headband for great fit and maximum comfort, even in long work sessions. A professional mini XLR connector allows quick replacement of the cable.

On-ear, semi-open design
for solid base and airy highs

Optimized for single-ear use
keeps the familiar sound and makes intonation easier

Patented Varimotion 30mm XXL transducer
for accurate signal transfer and great dynamic range

Leatherette and velvet ear pads
for maximum wearing comfort

Self-adjusting headband
for optimum fit and ease of use
