

AKG K141 MKII

The K141 MKII professional semi-open, on-ear headphones are an advanced version of the legendary K141 headphones, ideal for studio monitoring. The patented 30mm XXL transducers with Varimotion technology deliver higher sensitivity, a wide dynamic range and an incredible SPL. Optimized for single-ear use as well, they deliver familiar sound and makes intonation easy.

The K141 MKII headphones feature gimbal suspended leatherette and velvet ear

cups and a self-adjusting headband for great fit and maximum comfort, even in long work sessions. A professional mini XLR connector allows quick replacement of the cable.

On-ear, semi-open design
for solid base and airy highs

Optimized for single-ear use
keeps the familiar sound and makes intonation easier

Patented Varimotion 30mm XXL transducer
for accurate signal transfer and great dynamic range

Leatherette and velvet ear pads
