AKG K271 MKII

The K271 MKIIs are professional over-ear headphones for studio and live use. They combine the comfort of an over-the-ear design and the benefits of closed-back technology for best possible sound reproduction. The sealed design ensures low signal bleeding into microphones in the studio and maximum isolation for live mixing applications.

The K271 MKIIs feature a switch in the headband that mutes the audio just as soon as the headphones are taken off. They provide a professional mini XLR connector for quick

replacement of the cable. The package includes a 3m (10ft) straight and 5m (16ft) coiled cable.

High-quality closed-back 55-ohm around-the-ear studio headphones with switchable headband mute control. Equipped with detachable cable with locking mini-XLR connector and screw-on 1/4-inch adapter. Comes with leatherette and velour ear pads, 10-ft straight and 16.5-ft coiled cables.

Over-ear design:
maximum wearing comfort for long work sessions

Advanced closed technology:
for high noise insulation, best possible sound reproduction

Auto-mute feature:
mutes headphones when they are taken off

Sealed design with lowest signal bleeding:
for vocal and instrument recordings without unwanted spill

Self-adjusting headband:
for optimum fit and ease of use
