Shure Beta 58A Microphone

The Shure BETA 58A® is a high-output supercardioid dynamic vocal microphone designed for professional sound reinforcement and project studio recording. It has become a leading choice among vocalists and touring professionals worldwide.

The Beta 58A maintains a true supercardioid pattern throughout its frequency range. The Beta 58A has a shaped frequency response that is ideal for close-up vocals. The superb

performance of this microphone is not affected by rough handling because of its rugged construction, proven shock mount system, and hardened steel mesh grille.

Features

Frequency response tailored for vocals, with brightened midrange and bass rolloff to control proximity effect Uniform supercardioid pattern for high gain before feedback and superior rejection of off—axis sound Neodymium magnet for high signal—to—noise output Hardened steel mesh grille that resists wear and abuse Advanced pneumatic shock mount system that minimizes transmission of mechanical noise and vibration Minimally effected by varying load impedance Legendary Shure quality and reliability

Type: Dynamic (moving coil)

Frequency Response: 50 to 16,000 Hz

Polar Pattern: Supercardioid, rotationally symmetrical about

microphone axis, uniform with frequency.

Output Level: Open Circuit Voltage: -51.5 dBV/Pa* (2.6 mV) *1

Pa = 94 dB SPL
