

Shure SM58-LC Microphone

The legendary Shure SM58 vocal microphone is designed for professional vocal use in live performance, sound reinforcement, and studio recording. Its tailored vocal response for sound is a world standard for singing or speech. A highly effective, built-in spherical filter minimizes wind and breath “pop” noise. A unidirectional (cardioid) pickup pattern isolates the main sound source while minimizing unwanted background noise.

Rugged construction, a proven shock-mount system, and a steel mesh grille ensure that even with rough handling, the SM58 will perform consistently, outdoors or indoors.

Features

Frequency response tailored for vocals, with brightened midrange and bass rolloff

Uniform cardioid pickup pattern isolates the main sound source and minimizes background noise

Pneumatic shock-mount system cuts down handling noise

Effective, built-in spherical wind and pop filter

Supplied with break-resistant stand adapter which rotates 180 degrees

Legendary Shure quality, ruggedness and reliability

Cardioid (unidirectional) dynamic

Frequency response: 50 to 15,000 Hz

Replacement cartridge: R59

Type: Dynamic (moving coil)

Frequency Response: 50 to 15.000 Hz

Polar Pattern: Unidirectional (cardioid), rotationally symmetrical about

microphone axis, uniform with frequency
